Featured Speaker:
Luisa M. Paiewonsky,
Commissioner Massachusetts
Highway Department

Luisa Paiewonsky has served as Commissioner of the Massachusetts Highway Department (MassHighway) since 2005. Ms. Paiewonsky has spent her entire career in public service. Following a three-year tour in the US Peace Corps, she joined MassHighway in 1989 and has worked in a variety of staff and management roles. In her current position, her main emphasis areas are highway and employee safety, context sensitive design, and preservation of bridges and the Interstate Highway System. She has spearheaded major initiatives aimed at streamlining the design and construction of roads and bridges across the state, and implemented safety and risk management programs to reduce the number of injuries and fatalities on Massachusetts roads.

Luisa Paiewonsky will discuss MassHighways' environmental compliance achievements within its operations, and how the need for energy conservation and resource protection affect statewide infrastructure planning. Luisa will also share her insights and career path to a leadership role within the traditionally male-dominated transportation industry.
